

TeamMatch API

Final Working Session — Testing Guide

Live API	https://teammatch-api-eqaaaxgtffwdhcj.canadacentral-01.azurewebsites.net
Docs	https://teammatch-api-eqaaaxgtffwdhcj.canadacentral-01.azurewebsites.net/docs
Course ID	5d3af507-3217-44c1-91f6-ac59f8ccdedd
Course	CS 499 - Senior Capstone Spring 2026

Team Assignments

Your Team	Tests
Future Group	Match
Rocket	Asteroid Destroyers
Bit by Bit	Run

Step 1 — What to Test

Use Postman or the live **/docs** page. Test the assigned team's endpoints.

Courses

```
GET /courses/
GET /courses/5d3af507-3217-44c1-91f6-ac59f8ccdedd
POST /courses/
```

POST body:

```
{
  "name": "CS 301 - Test Course",
  "instructor_id": "instructor-001",
  "team_size": 4
}
```

Students

```
GET /students/course/5d3af507-3217-44c1-91f6-ac59f8ccdedd
POST /students/
```

POST body:

```
{
  "name": "Test Student",
  "email": "test@test.com",
  "course_id": "5d3af507-3217-44c1-91f6-ac59f8ccdedd",
  "skills": ["Python", "React"],
  "availability": ["Monday", "Wednesday"],
  "experience_level": "intermediate",
  "leadership_preference": "flexible"
}
```

Teams

```
GET /teams/course/5d3af507-3217-44c1-91f6-ac59f8ccdedd
GET /teams/{team_id}
```

Example team IDs from CS 499:

```
Team 1: d81d05ec-f82b-43d5-b75a-28791de1f631
Team 2: 50d61021-a79e-4de5-89ce-ae52c837a9a6
Team 3: d533d05d-642a-4908-9a5f-532a24ef5840
```

Check-ins

```
GET /checkins/course/5d3af507-3217-44c1-91f6-ac59f8ccdedd
GET /checkins/team/d81d05ec-f82b-43d5-b75a-28791de1f631
GET /checkins/student/{student_id}
POST /checkins/
```

POST body:

```
{
  "student_id": "5f5549c9-0b68-4f7c-b4e3-4d1d9d541c54",
  "team_id": "d81d05ec-f82b-43d5-b75a-28791de1f631",
  "course_id": "5d3af507-3217-44c1-91f6-ac59f8ccdedd",
  "hours_worked": 10,
  "tasks_completed": "Built the login page",
  "what_i_worked_on": "Frontend authentication flow",
  "week_number": 12,
  "needs_help": false,
  "completion_status": "on_track",
  "confidence_level": 4
}
```

Match Runs

```
GET /matchruns/course/5d3af507-3217-44c1-91f6-ac59f8ccdedd
GET /matchruns/025188a0-2a1b-4e67-8c31-a0a18236834d
POST /matchruns/
```

POST body:

```
{
  "course_id": "5d3af507-3217-44c1-91f6-ac59f8ccdedd"
}
```

Expected response — status moves **PENDING** → **RUNNING** → **COMPLETED**. Get the run ID back and poll the GET to watch it progress.

Projects

```
GET /projects/course/5d3af507-3217-44c1-91f6-ac59f8ccdedd
GET /projects/team/d81d05ec-f82b-43d5-b75a-28791de1f631
POST /projects/
PATCH /projects/milestones/{milestone_id}
```

POST body:

```
{
  "course_id": "5d3af507-3217-44c1-91f6-ac59f8ccdedd",
  "name": "Test Project",
  "description": "A sample project for testing",
  "deadline": "2026-05-15"
}
```

Mark a milestone complete:

PATCH /projects/milestones/9d9f881c-f26c-4e73-a61b-e79c7434ab3a
Content-Type: application/json

```
{  
  "completed": true  
}
```

Step 2 — Written Testing Output (Submit per team)

Answer these for each API you tested:

Team tested	
APIs tested	
What worked well	
Issues found	
Suggestions	

Step 3 — Individual Accountability Questions

Be ready to answer any of these:

- Explain what your API does
- Show a request and its response
- Show what happens when you send bad data (error case)
- What issue did your team find in the other group's API?

Step 4 — Error Case to Know

Send a POST to **/students/** with a missing required field (e.g. remove **leadership_preference**). You should get:

```
{  
  "detail": [  
    {  
      "type": "missing",  
      "loc": ["body", "leadership_preference"],  
      "msg": "Field required"  
    }  
  ]  
}
```

This is a **422 Unprocessable Entity** — the API correctly rejects invalid input.

Final Submission Checklist

- ■ Clean API endpoints working on live URL
- ■ At least one POST and one GET demonstrated in Postman

- ■ Written testing output submitted
- ■ Individual contribution documented
- ■ GitHub pushed and up to date
